ASX ANNOUNCEMENT

17 December 2020

DRILLING CONTINUES – TUCKLAN PROJECT

Sultan Resources Ltd (**Sultan** or the **Company**, **ASX:SLZ**) is pleased to advise that the drill programme at its epithermal gold target in the east Lachlan fold belt, Tucklan, is continuing.

To date, the Company has drilled 6 reverse circulation holes of a potential 12 hole maiden programme at Tucklan. The Company has secured a diamond drill rig to finalise certain of these holes and reach target depth.

Drilling of the diamond tails at Tucklan will commence after the Christmas break.

At its Big Hill tenure, the Company can report that it has finalized the IP survey at its primary Cadia skarn style target, Razorback, and is awaiting results. Further IP surveys will be conducted at the Big Hill copper-gold porphyry target and Gowan Green skarn target in the new year which will set the platform for drilling in 2021.

Authorised on behalf of the Board

Mauro Piccini
Company Secretary
