Any recipient of this TMD who wants to acquire New Options under the Offers will need to complete the application form that will be in, or will accompany, the Prospectus. There is no cooling off period in respect of the issue of the New Options. This TMD is not a disclosure document for the purposes of the *Corporations Act 2001* (Cth), and therefore has not been lodged, and does not require lodgement, with the Australian Securities and Investments Commission (**ASIC**) nor does it contain a full summary of the terms and conditions of the New Options.

### 1. TARGET MARKET

Factor	Target market
--------	---------------

<b>Investment Objective</b>	The Company expects that an investment in the New Options will be suitable to investors who wish to gain exposure to equities in a small/mid-cap mining company listed on the Australian Securities Exchange ( <b>ASX</b> ).
<b>Investment Timeframe</b>	<p>The target market of investors will take a short to medium term outlook on their investment. Investors with a short-term outlook for their investment will benefit from an ability to exercise New Options and trade the underlying Shares issued on exercise should the exercise price of the New Options be lower than the trading price of Shares.</p> <p>Investors with a medium-term outlook will benefit from an ability to exercise the New Options before 5:00pm (WST) three (3) from the date of issue and increase their shareholding and exposure to the potential upside in the Company's Shares into the future.</p> <p>Given the need to pay the exercise price in order to acquire Shares, Investors in the target market are in a financial position that is sufficient for them to invest their funds three (3) years from the date of issue should they wish to exercise their New Options. Any decision to exercise the Options is likely to be based on the trading price of the Shares.</p>
<b>Product description and key attributes</b>	<p>The key eligibility requirements and product attributes of the Options are:</p> <ul style="list-style-type: none"> <li>• the Offer is a pro-rata non-renounceable entitlement issue to Eligible Shareholders of one (1) free-attaching New Option for every three (3) New Shares subscribed for and issued;</li> <li>• the New Options are free-attaching to the New Shares and are exercisable at \$0.03 per New Option with an expiry date of 5:00pm (WST), three (3) years from the date of issue;</li> <li>• a maximum of 16,465,561 New Options will be issued under the Offer;</li> <li>• a maximum of 16,465,561 New Options will be issued under the Underwriter Offer;</li> <li>• a maximum of 10,000,000 New Options will be issued under the Joint Lead Manager Offer;</li> <li>• the Offer is non-renounceable, accordingly a shareholder may not sell or transfer all or part of their entitlement; and</li> <li>• the Offers is not being extended to, and the New Options will not be issued to, shareholders with a registered address which is outside Australia and New Zealand.</li> </ul>

<p><b>Investment Metrics</b></p>	<p>While the Company does not have an established eligibility framework for investors based on metrics such as age, expected return or volatility, it is expected that the target market of investors will be able to withstand potential fluctuations in the value of their investment.</p> <p>An exercise price is required to be paid to acquire shares on exercise of the New Options. As such, the capacity to realise the underlying value of the New Options would require that they be exercised on or before the expiry date. Investors in the target market will need to be in a financial position to have sufficient available funds so as to facilitate an exercise of the New Options prior to the expiry date. Prior to the expiry date, investors' ability to liquidate the New Options may be limited by a lack of liquidity in the trading of Options and New Shares and the price of the New Shares.</p> <p>The New Options offer no guaranteed income or capital protection.</p>
<p><b>Risk</b></p>	<p>The Company considers that an investment in the New Options is highly speculative, such that an investment in the Company is not appropriate for an investor who would not be able to bear a loss of some or all of the investment. Investors should also have a sufficient level of financial literacy and resources (either alone or in conjunction with an appropriate adviser) to understand and appreciate the risks of investing in New Options as an asset class generally and the more specific risks of investing in an Australian listed mining company.</p>

**2. DISTRIBUTION CONDITIONS**

The offer of New Options under the Prospectus is being made to those shareholders in the Company registered at the record date specified in the Prospectus (**Eligible Shareholders**).

Any entitlement not taken up under the offer will form a shortfall offer (**Shortfall Offer**). The Shortfall Offer is a separate offer made pursuant to the Prospectus and will remain open for up to three (3) months following the Closing Date, although it is intended that the Shortfall Offer will close promptly following the Closing Date of the Offers under the terms of the Underwriting Agreement.

The Directors and the Underwriter reserve the right to issue New Options under the Shortfall Offer at their absolute discretion. Accordingly, there is no guarantee that Applicants under the Shortfall Offer will receive any Shortfall Securities applied for under the Shortfall Offer.

The Prospectus will include jurisdictional conditions on eligibility. The Company will also include on its web landing page for the offer of New Options a copy of this TMD and require that retail clients confirm that they meet the eligibility criteria of the expected target market

outlined in this TMD before they apply for New Options.

The Company considers that these distribution conditions will ensure that persons who invest in Options fall within the target market in circumstances where personal advice is not being provided to those persons by the Company.
